PANOPTIC AI

Next-generation camera-based solutions shaping the future of digital health

PanopticAI's award-winning camera-based health and wellness monitoring solution provides users with a holistic analysis of their health simply by using the camera of their smartphone, tablet, or computer. Users can learn about their physiological signs (e.g., heart rate, respiratory rate, heart rate variability, stress index, etc.) and get actionable insights from their own comfort and privacy within 30 seconds.
