

Deep-tech Start-up Career Fair

"Early Engagement, Wild Impact."

Location

UG Floor, Martin Ka Shing Lee Innovation Building, HKUST

10:00 – 15:00

25 April 2026

Participating Companies

- **Acoustic Metamaterials Group Limited (AMG)**
 - Specializing in cutting-edge acoustic metamaterials that control, manipulate and enhance sound in revolutionary ways
- **Atom Semiconductor Technologies Limited**
 - Analog chip solution for “sensing-driving” in embodied AI scenarios
- **AgileReach**
 - Developing agile & intelligent tactical solutions for robotic dexterous
- **Argusmo Technology Co. Ltd**
 - Pioneering intelligent modeling for a smarter world
- **Fast Light Technology Limited**
 - Leading technologies of ferroelectric liquid crystal materials
- **Global Medical Biotech Limited**
 - Modern biotechnology empowered by TCM
- **PointFit Technology Limited**
 - Revolutionizing wellness with personalized, real-time, and continuous sweat biomarker insights
- **Stellerus Technology Limited**
 - Satellite-driven multimodal solutions: turning space data into climate intelligence
- **Zonic Tech Limited**
 - AI Video Editing Platform for the media and enterprise ecosystem

Why Attend?

USTers Empower USTers:

Connect with alumni to kickstart your deep-tech journey

Explore Diverse Opportunities:

Full-time, part-time, and internship roles for every background

Open Roles

- Head of R&D & Product Development
- LCD Test Engineer
- LLM Engineer
- Algorithm Engineer
- Data Engineering / Marketing Interns, and more... ..
